Thank You for purchasing BookChoix Theme. If you have any questions that are beyond the scope of this help file, please feel free to please a open ticket at <https://envato.acmeedesign.support> (<https://envato.acmeedesign.support>).

Please provide us your admin login details for faster support. Thank you!

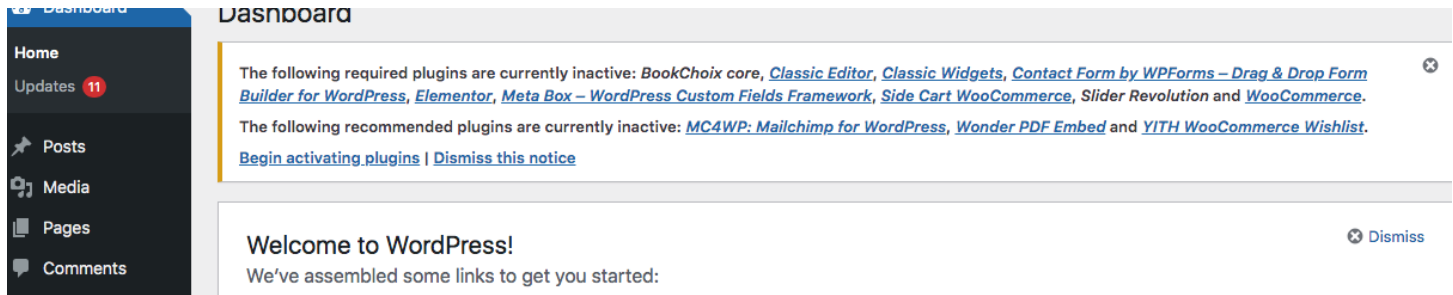

Before Getting Started

Hope you are familiar with WordPress and Woocommerce. If you're not, please check the following links for more details.

- Wordpress first steps http://codex.wordpress.org/First_Steps_With_WordPress (http://codex.wordpress.org/First_Steps_With_WordPress)
- Wordpress install requirements <https://wordpress.org/about/requirements/> (<https://wordpress.org/about/requirements/>)
- What is theme? https://codex.wordpress.org/Using_Themes (https://codex.wordpress.org/Using_Themes)
- Woocommerce <https://www.woothemes.com/woocommerce/> (<https://www.woothemes.com/woocommerce/>)

- Woocommerce for store owners <https://www.woothemes.com/woocommerce/store-owners/>
(<https://www.woothemes.com/woocommerce/store-owners/>)

Getting Started!

1. Download your purchased theme from your **Themeforest.net** account's downloads page. If you download "All files & documentation", you will need to unzip it and find the installable theme file inside it.
2. Login to your WordPress Admin Panel, go to **Appearance > Themes** Click on the **Add New and Upload Theme**. Click on the Choose File button and navigate to find the BookChoix-wordpress-theme.zip file on your computer and click on the "Install Now" button
3. Once the theme is installed, activate the theme by clicking "**Activate**" button.
4. After theme installation, you will get notification about required plugins to be installed. Just click on the "Install plugins" from the notification. Once the plugins installed "Activate" all plugins.

That's it! You can start customizing the theme and adding contents to your web site. If you want to start with the demo content provided by the theme, you can follow the below steps.

Woocommerce

What is Woocommerce?

WooCommerce is a free eCommerce plugin that allows you to sell anything, beautifully. Built to integrate seamlessly with WordPress, WooCommerce is the world's favorite eCommerce solution that gives both store owners and developers complete control.

How to install?

You can install Woocommerce in 2 ways.

- Install manually from Wordpress plugins repository.
- Install automatically from "Install required plugins" by BookChoix theme in-built feature.

Configure Woocommerce

After Woocommerce installation, it will take you to configure the plugin. Otherwise click the **Run the setup wizard** button

As the first step, it will ask you to setup woocommerce pages. If you want to import BookChoix demo content, just skip the first step by clicking "Skip this step" as the demo content will import woocommerce pages for you otherwise you get duplicate pages.

Page Setup Store Locale Shipping & Tax Payments Ready!

Page Setup

Your store needs a few essential [pages](#). The following will be created automatically (if they do not already exist):

Shop	The shop page will display your products.
Cart	The cart page will be where the customers go to view their cart and begin checkout.
Checkout	The checkout page will be where the customers go to pay for their items.
My Account	Registered customers will be able to manage their account details and view past orders on this page.

Once created, these pages can be managed from your admin dashboard on the [Pages screen](#). You can control which pages are shown on your website via [Appearance > Menus](#).

Click Skip if you want to install demo content → **Skip this step** **Continue**

Setup Store locale and click **Continue**.

Page Setup Store Locale Shipping & Tax Payments Ready!

Store Locale Setup

Where is your store based? United States (US) — Alabama

Which currency will your store use? US Dollars (\$) *If your currency is not listed you can [add it later](#).*

Which unit should be used for product weights? lbs

Which unit should be used for product dimensions? in

Skip this step Continue

Setup Tax information and click **Continue**.

Page Setup Store Locale Shipping & Tax Payments Ready!

Shipping & Tax Setup

If you will be charging sales tax, or shipping physical goods to customers, you can configure the basic options below. This is optional and can be changed later via [WooCommerce > Settings > Tax](#) and [WooCommerce > Settings > Shipping](#).

Basic Shipping Setup

Will you be shipping products? Yes, I will be shipping physical goods to customers

Basic Tax Setup

Will you be charging sales tax? Yes, I will be charging sales tax

Skip this step Continue

Setup Payment options and Click **Continue**.

Page Setup Store Locale Shipping & Tax Payments Ready!

Payments

WooCommerce can accept both online and offline payments. [Additional payment methods](#) can be installed later and managed from the [checkout settings](#) screen.

PayPal Standard

To accept payments via PayPal on your store, simply enter your PayPal email address below.

PayPal Email Address:

Offline Payments

Offline gateways require manual processing, but can be useful in certain circumstances or for testing payments.

Cheque Payments Enable payment via Cheques

Cash on Delivery Enable cash on delivery

Bank Transfer (BACS) Enable BACS payments

That's it. Your store is Ready to get started with creating your products.

Please check the following documentation to learn about how to setup your products <https://docs.woothemes.com/documentation/plugins/woocommerce/getting-started/setup-products/> (<https://docs.woothemes.com/documentation/plugins/woocommerce/getting-started/setup-products/>)

Demo Content

BookChoix theme comes with **One Click Demo** importer feature. This will help you start your online business quickly and easily.

After activating the BookChoix theme, click the **Appearance > Demo Import** page.

PHP memory limit (memory_limit) ✓ 256M 256M

Import BookChoix Theme Demo

This will install the theme demo contents for quick starting and this will take a few minutes to complete depending on your server speed.

It looks like you have already run the demo import for this theme.

Start importing theme demo contents

Importing demo data is the easiest way to setup your theme. It will allow you to quickly edit everything instead of creating content from scratch. Also, read following points before importing the demo:

1. It is highly recommended to import demo on fresh WordPress installation to exactly replicate the theme demo. You can use [WP Reset plugin](#) to reset the database to start a fresh installation.
2. No existing posts, pages, categories, images, custom post types or any other data will be deleted or modified.
3. It will install the plugins required for demo and activate them. Also posts, pages, images, widgets, & other data will get imported.
4. The demo will install following plugin/s: WooCommerce, Elementor
5. Please click on the Import button and wait, it will take some time to import the data.

Yes, Import Demo! Cancel

Here you go, to view your website and start customizing your new website theme.

Theme Options

BookChoix theme comes with many theme customization options for your convinience.

Click on **Appearance > BookChoix Options** link from the admin menu. You will see a lot of options there. All options are self explanatory and easy to use.

Main Settings you have to configure are

General Settings

- Choose body font style, font size, color, etc.
- More controls will be added in the future updates.

Topbar Settings

From Topbar Setting you can customize the Top bar elements

The screenshot shows the 'Topbar Style' settings page. The left sidebar contains a navigation menu with 'Topbar Settings' expanded to show 'Topbar Style', 'Topbar Content Order', and 'Topbar Custom Content'. The main content area is titled 'Topbar Style' and includes several settings:

- Display topbar:** A checked checkbox.
- Top bar background:** A 'Select Color' button with the instruction 'Choose background color.'
- Top bar text color:** A 'Select Color' button with the instruction 'Choose text color.'
- Top bar link color:** Three 'Select Color' buttons for 'Regular', 'Hover', and 'Active' states, with the instruction 'Choose link color.'
- Top bar icons color:** A 'Select Color' button with the instruction 'Choose Top bar icons color.'
- Top bar icons hover color:** A 'Select Color' button with the instruction 'Choose Top bar icons hover color.'

At the top right of the settings area are buttons for 'Save Changes', 'Reset Section', and 'Reset All'.

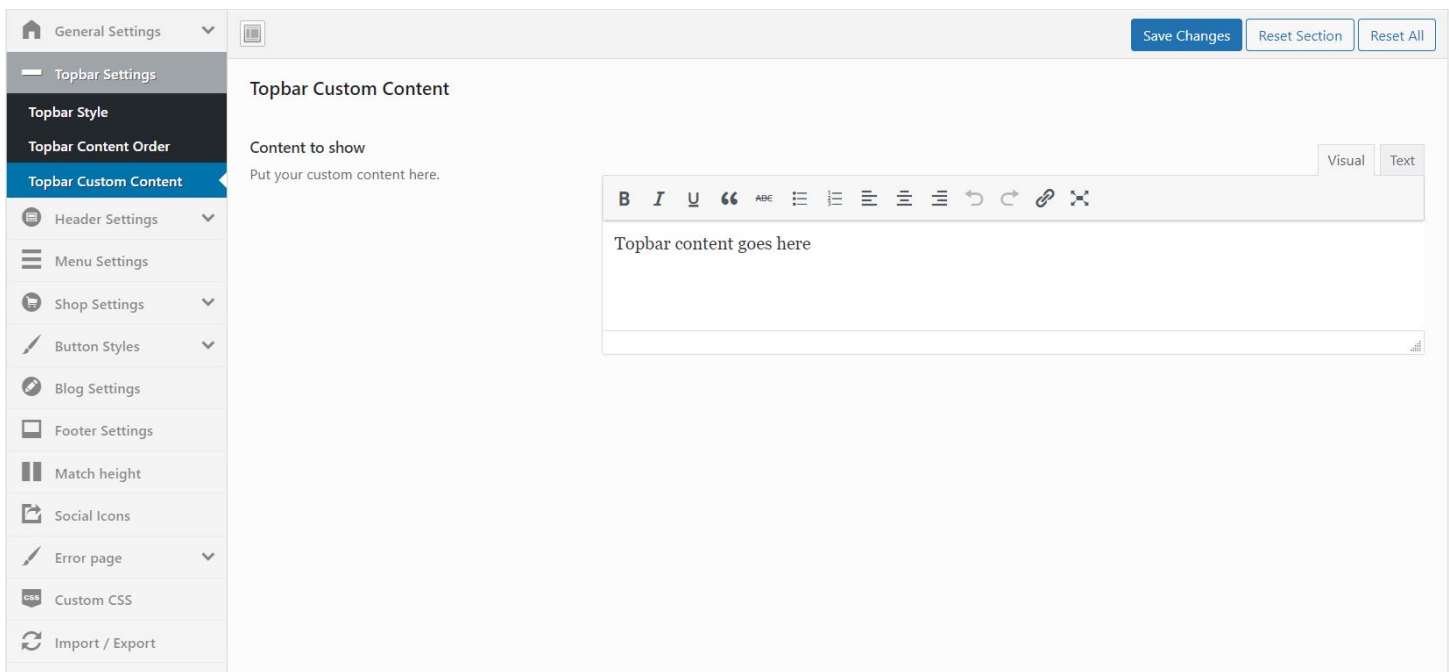

YOU can reorder the ontents placed in top bar

The screenshot shows the 'Topbar Content Order' settings page. The left sidebar is the same as in the previous screenshot, but 'Topbar Content Order' is selected. The main content area is titled 'Topbar Content Order' and includes:

- Align topbar contents:** A section header.
- Sort topbar contents:** A section header with the instruction 'Re-order the contents as you want.'
- A list of three items, each with a checked checkbox and a plus-minus icon: 'Social Icons', 'Topbar Custom Content', and 'Topbar Navigation'.
- The instruction 'Drag and drop the elements in the order you like.'

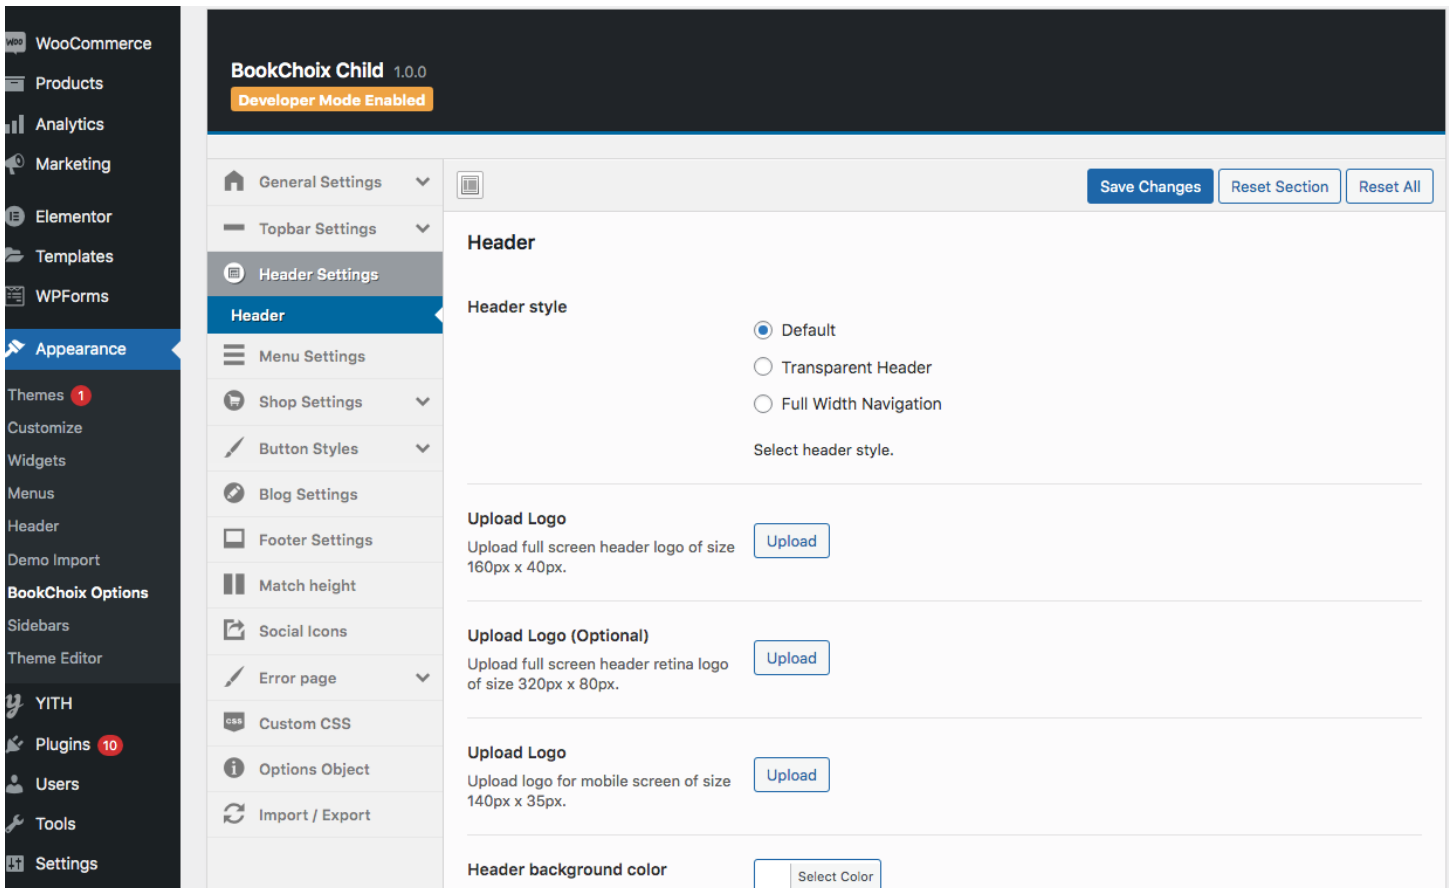

At the top right of the settings area are buttons for 'Save Changes', 'Reset Section', and 'Reset All'.

Put your custom content that to be displayed in topbar

Header Settings

From Header settings you can customize Main header elements. Like uploading Logo, enable or disable currency switcher, etc.

Menu Settings

From menu settings, you can customize the Top menu styles like menu background, font type, font size, etc.

General Settings | Topbar Settings | Header Settings | **Menu Settings** | Shop Settings | Button Styles | Blog Settings | Footer Settings | Match height | Social Icons | Error page | Custom CSS | Import / Export

Save Changes | Reset Section | Reset All

Border color for Top level menu. [Green] Select Color

Sub Menu Background

Sub Menu background color. [White] Select Color

Sub Menu border color

Sub Menu border color. [White] Select Color

Shop Settings

What is a Shop page. It is page created by the Woocommerce plugin to list all woocommerce products in one place.

You can customize the shop page settings under Shop settings like Shop page title, shop header image, side bar position specific to shop page, etc.

General Settings

Show shop header

Shop sidebar position
Select sidebar position for shop page. On left On right

Disable Sale badge
Disable Sale badge in products grid.

Product title text wrap (Product grid)
Wrap words when title text overflow the width.

Show author link
Show author link on single product page under product price.

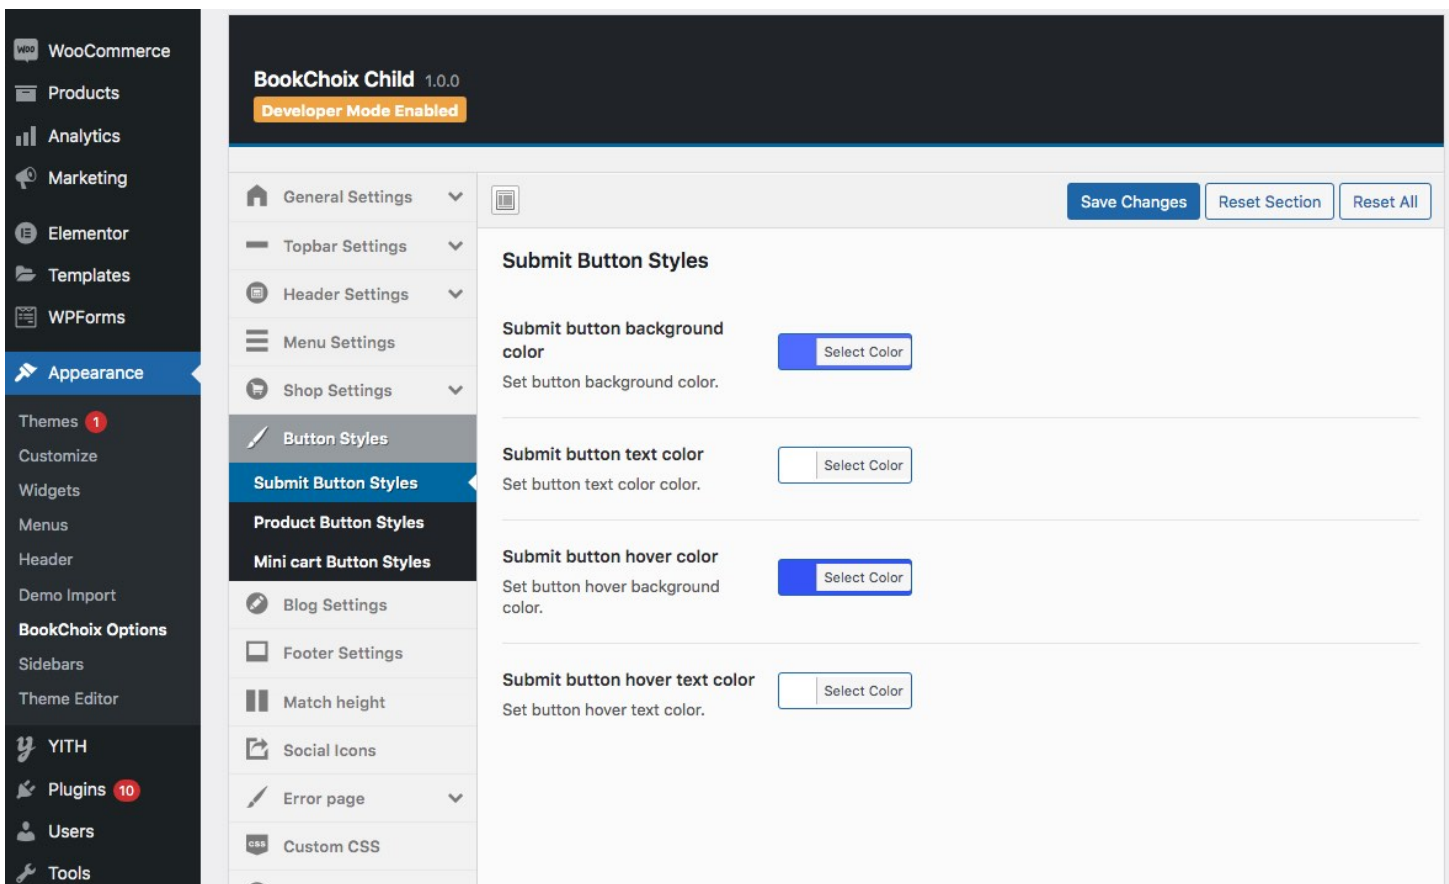

Number of products
Number of products to show shop page.

Number of products per row
Number of products to show per row.

Disable product related items

Button Styles

From the Button Settings, You can customize the button styles like changing the button color, button text, button border, etc.

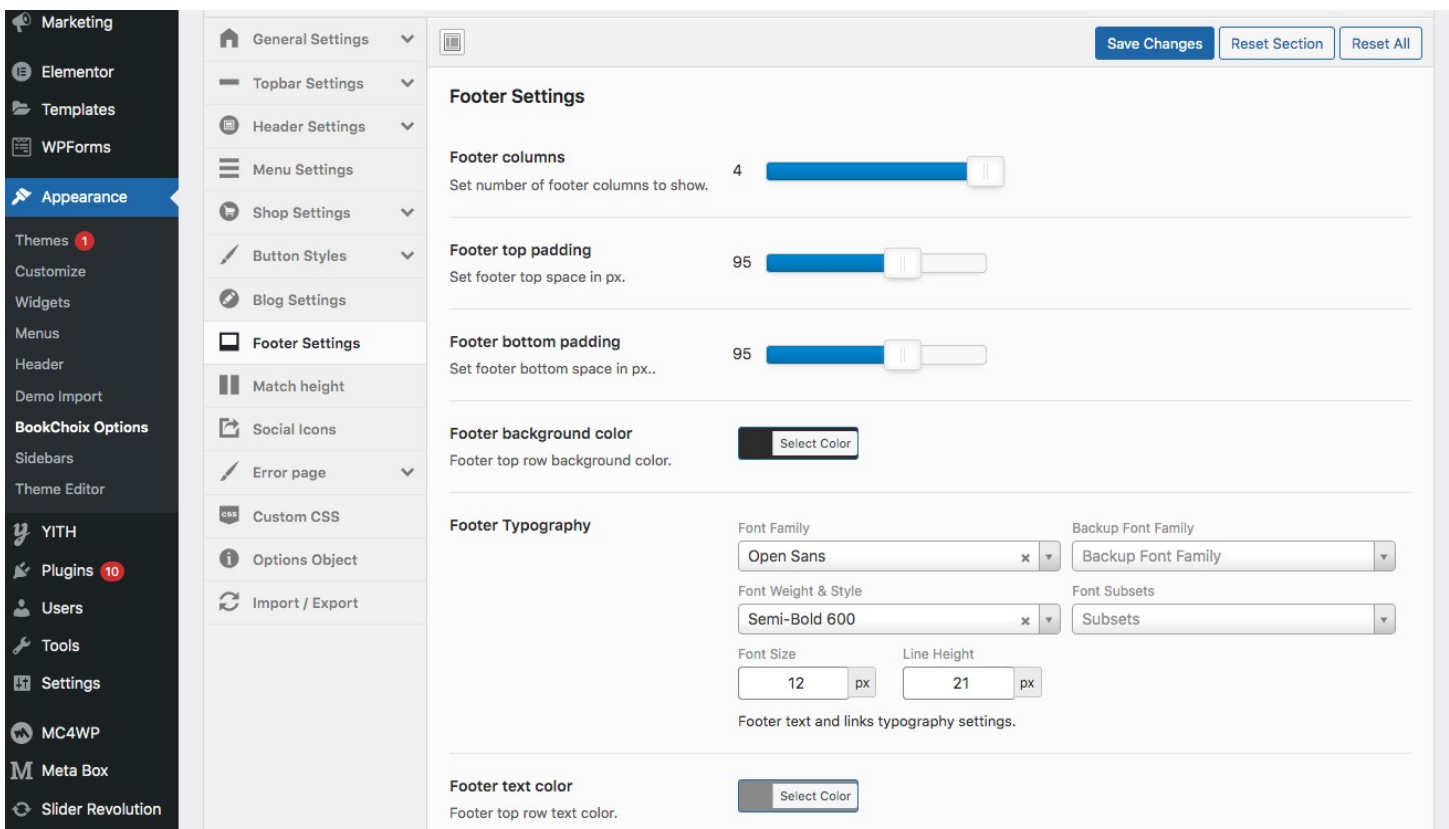

Blog Settings

Same like Shop page you can customize Blog page styling in the Blog settings page.

You can customize the blog page settings under Blog settings like blog header image, side bar position specific to blog page, etc.

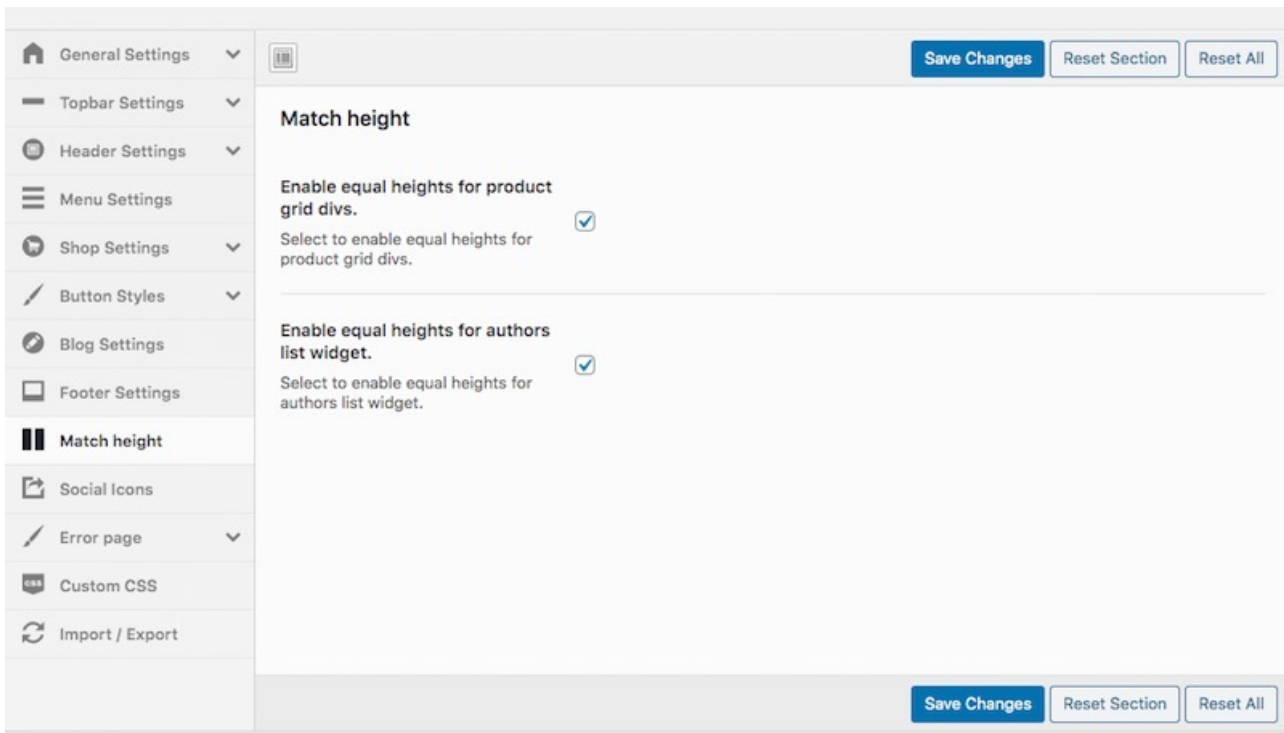

Footer Settings

From Footer settings you can customize bottom bar elements and Main footer elements. Like uploading Footer Copyright text, and customize the color for each element placed in footer

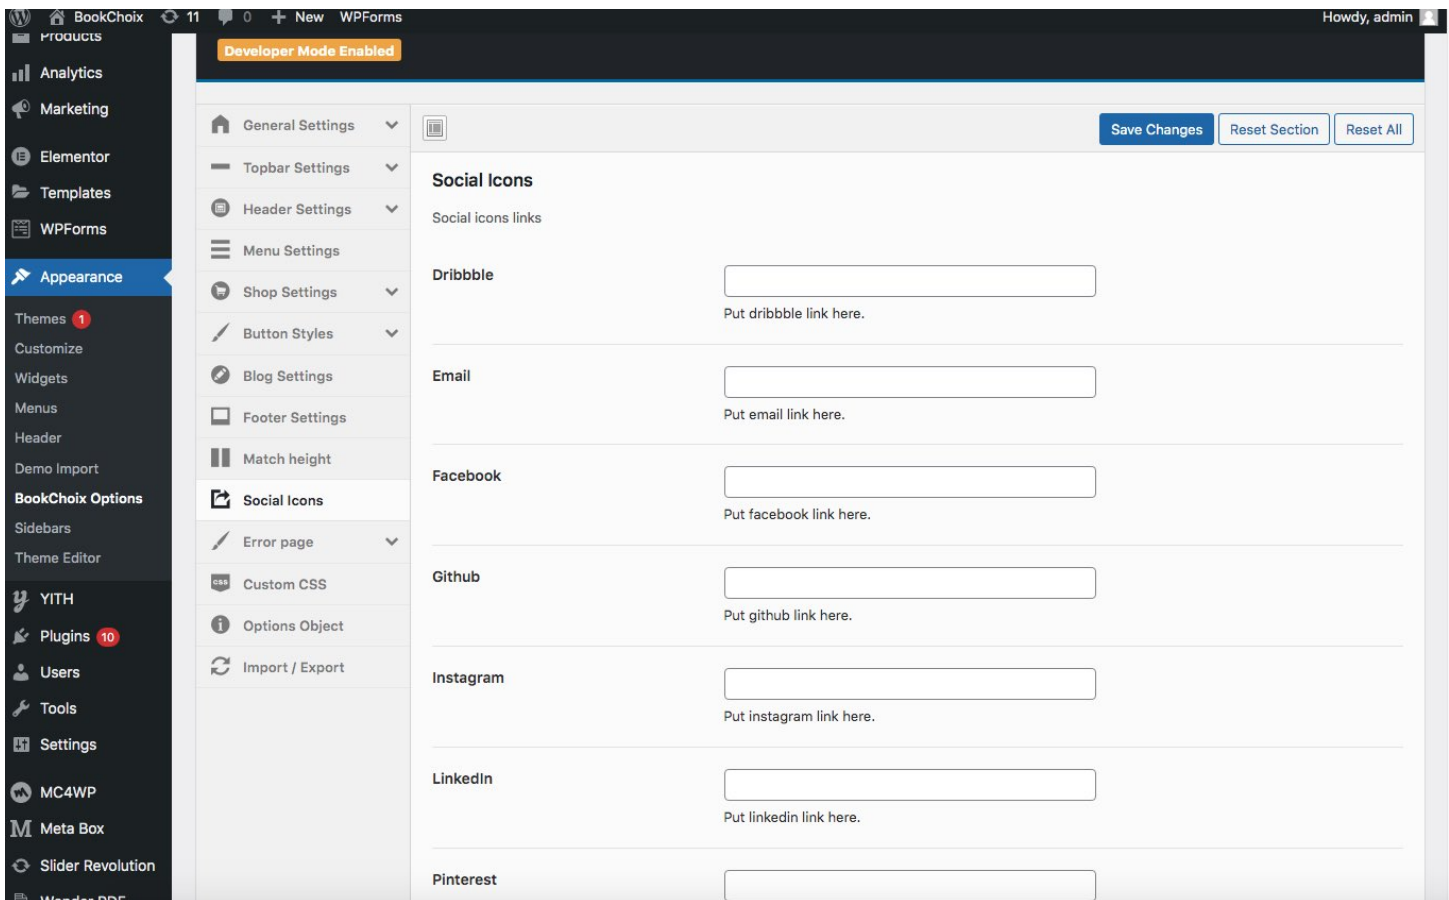

Match Height

From Match height settings, You can either enable or disable the equal heights for product grid divs and for the authors list widget.

Social Icons

Social icons will be shown at the footer section. Actually you should set which social icons to be displayed from WordPress widget. And you can set colors for it here.

How to add Logo?

To add your logo, Go to **BookChoix > Header Settings > Header** click upload button and select and upload your logo from your local computer.

That's it.

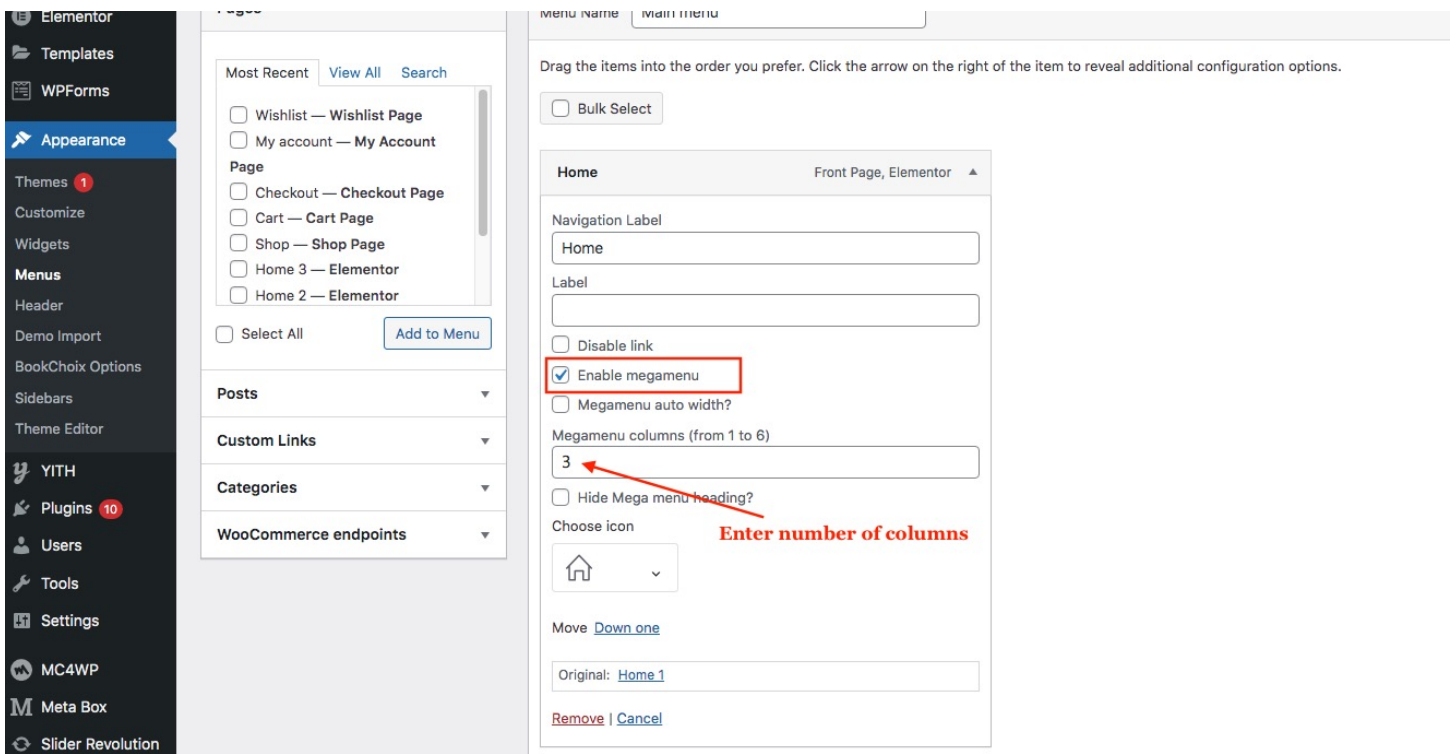

The screenshot displays the 'Header Settings' panel in the BookChoix theme. The left sidebar contains a navigation menu with options like 'General Settings', 'Topbar Settings', 'Header Settings', 'Header', 'Menu Settings', 'Shop Settings', 'Button Styles', 'Blog Settings', 'Footer Settings', 'Match height', 'Social Icons', 'Error page', 'Custom CSS', 'Options Object', and 'Import / Export'. The main content area is titled 'Header' and includes a 'Save Changes' button and 'Reset Section'/'Reset All' buttons. Under 'Header style', there are radio buttons for 'Default' (selected), 'Transparent Header', and 'Full Width Navigation', with a 'Select header style.' label below. The 'Upload Logo' section has three entries: 1) 'Upload full screen header logo of size 160px x 40px.' with a 'BOOKCHOIX Premium Bookstore then' logo preview and 'Upload'/'Remove' buttons. 2) 'Upload Logo (Optional)' with 'Upload full screen header retina logo of size 320px x 80px.' and an 'Upload' button. 3) 'Upload Logo' with 'Upload logo for mobile screen of size 140px x 35px.' and a 'BOOKCHOIX Premium Bookstore then' logo preview and 'Upload'/'Remove' buttons. At the bottom, 'Header background color' has a 'Select Color' button and the instruction 'Choose header background color.'

Creating Menu items

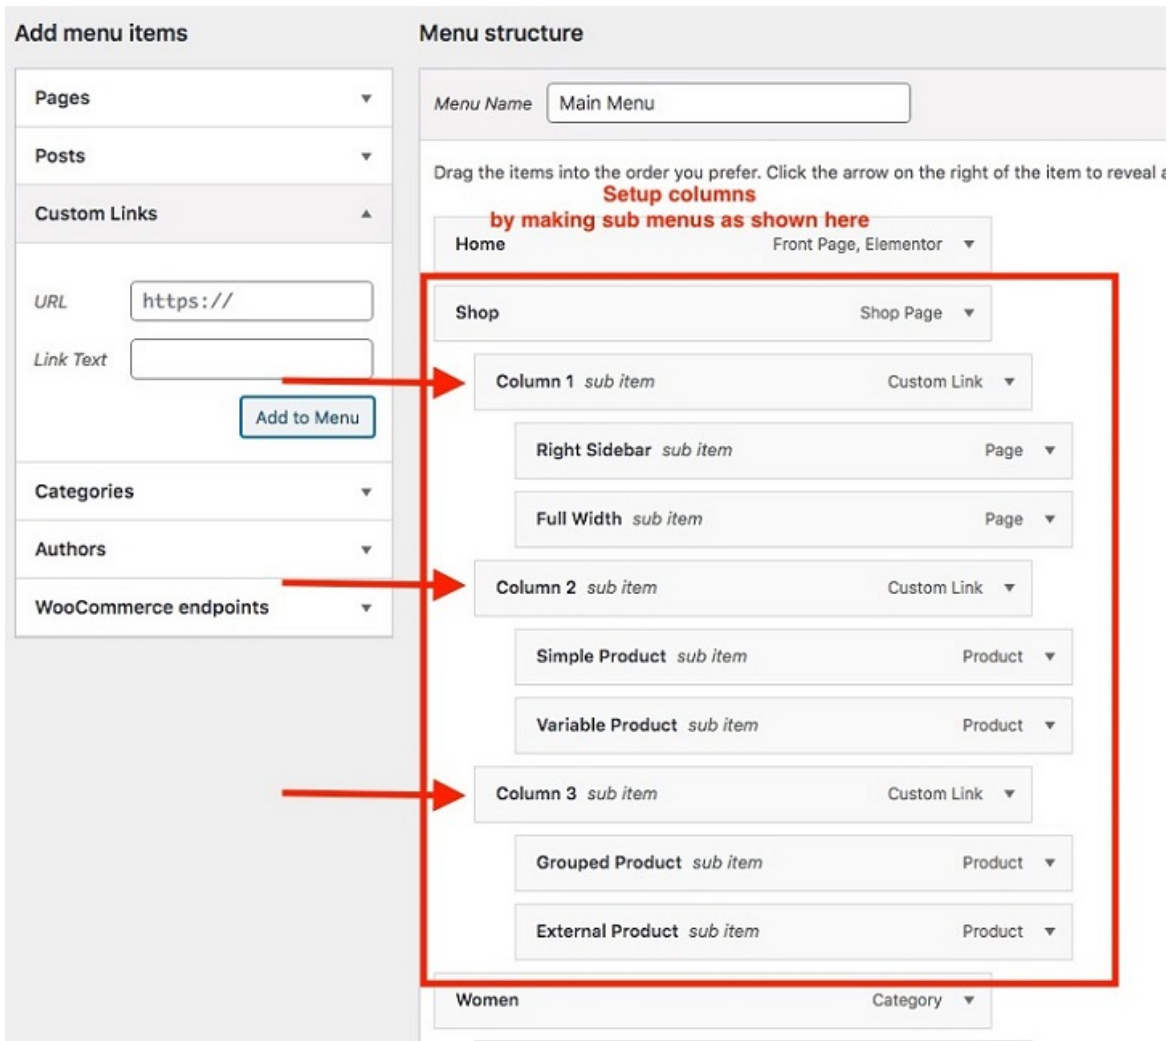

Creating menus from simple to Mega menus for your website is super easy as the theme comes in-built mega menu features.

Creating a simple dropdown menu is simple by just dragging the sub menu items to the right of the Parent menu.

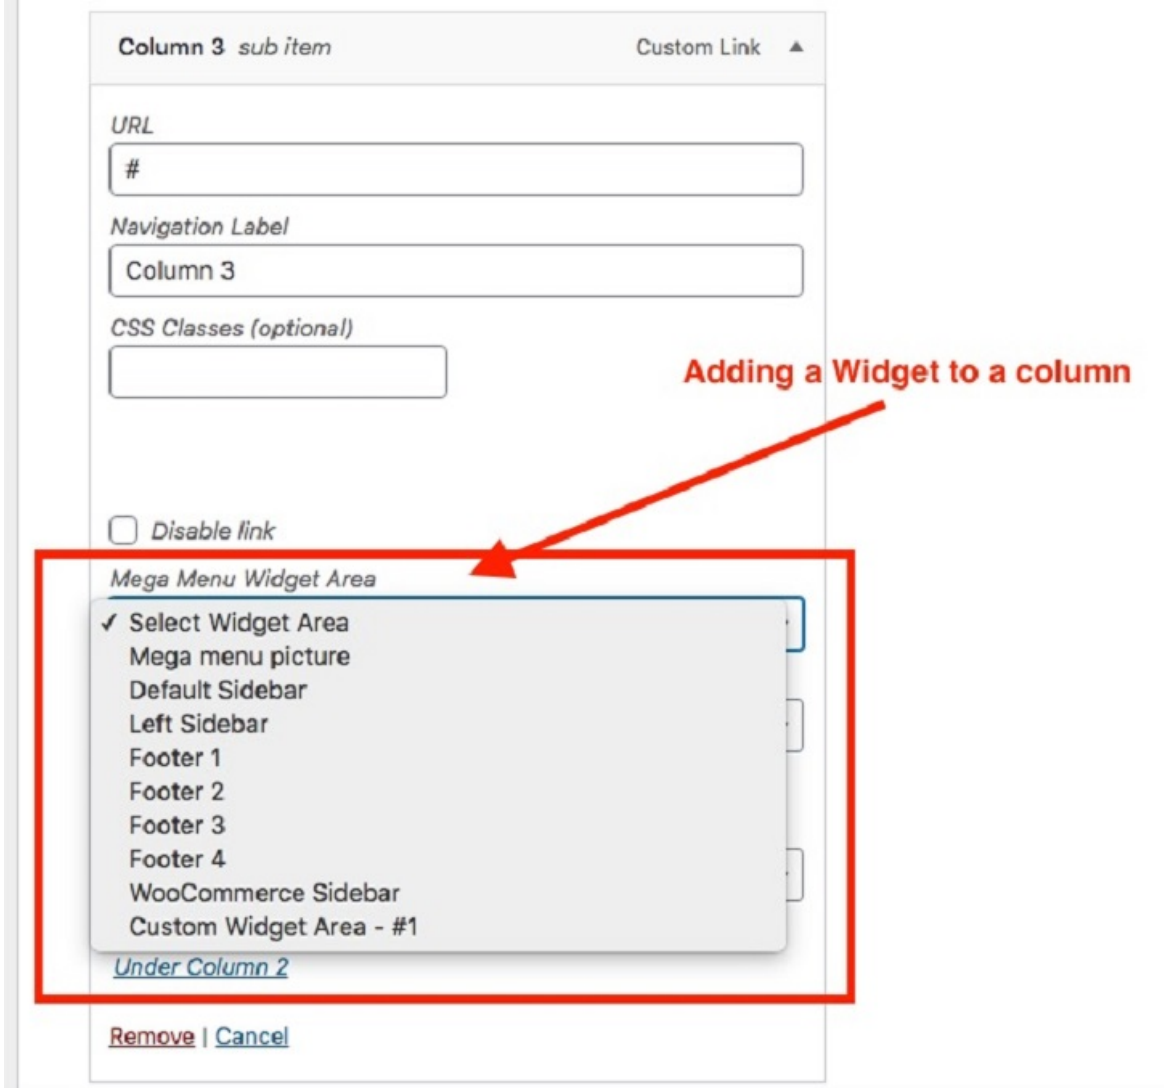

To create Mega menu, expand the menu and select "Enable mega menu" and set the number of columns that you need in the mega menu.

You can then create your columns and the submenus or column contents as shown below

You can also add an image via WordPress widget or insert any widget in to a column by selecting the sidebar from the dropdown as shown below

Widgets

Widgets

To create/manage widgets navigate to **Appearance > Widgets**

The BookChoix theme consists of different widget locations which will be listed on the right side of the widgets page. You can simply drag and drop the required widgets from left to the widget location at right.

Blog

To create a blog page, simply create blank page and then navigate to **Settings > Reading** and select the newly created Blog page next to Posts page label.

Reading Settings

Front page displays

Your latest posts

A [static page](#) (select below)

Front page: Home ▼

Posts page: Blog ▼

To create a post simply follow the below steps

- Go to Posts > Add New
- Enter the post title and post content.
- Choose the post format, category and tags on the right hand side.
- Add your categories and atgs to the new post.
- Finally publish the post.

Testimonials

BookChoix theme comes with Testimonial Custom Post type.

To add the testimonials of "What your customer feels about you."

Add Testimonial

Navigate to Add New

1. Add Title
2. Add Comment
3. Add Customer Name
4. Add Customers's Designation
5. Set your Customer's Profile Picture in Featured Image

The screenshot shows the WordPress 'Add new Testimonial' editor. The main content area has a title field and a rich text editor. The right-hand sidebar contains the following settings:

- Publish:** Save Draft, Preview, Status: Draft Edit, Visibility: Public Edit, Publish immediately Edit, and a circled **Publish** button.
- Categories:** A dropdown menu.
- Author:** A text input field.
- Author Designation:** A text input field.
- Featured image:** A dropdown menu with a **Set featured image** link.

Red arrows point to the 'Publish' button, the 'Author' field, the 'Author Designation' field, and the 'Set featured image' link. The text 'Add your Customer Name' is written above the Author field, 'Add Customers Designation' is written above the Author Designation field, and 'Add Profile Picture of Customer' is written above the Featured image section.

Click Publish, to publish the testimonial page.

Export/Import Options

Export

You can export all theme options to your local computer for making a backup. You can do that by navigating to **BookChoix > Import/Export** click "**Download Data file**" under Export options which will download the settings in json format.

Import

To import saved options from your local computer, navigate to **BookChoix > Import/Export** and click **Import from File** button. It will open a text box, copy the contents of your back up file and paste it and click **Import**.

That's it.
